DOCUMENT RESUME

ED 408 000 JC 970 347

AUTHOR	Cunningham, Stephen
TITLE	Pennsylvania College of Technology Sourcebook, 1996-97.
INSTITUTION	Pennsylvania Coll. of Technology, Williamsport. Office of Strategic Planning and Research.
PUB DATE	Jan 97
NOTE	362p.
PUB TYPE	Numerical/Quantitative Data (110) -- Reports - Descriptive (141)
EDRS PRICE	MF01/PC15 Plus Postage.
DESCRIPTORS	College Governing Councils; Community Characteristics; Community Colleges; *Educational Finance; *Enrollment; Enrollment Influences; Enrollment Trends; *Institutional Characteristics; *Student Characteristics; *Two Year College Students; Two Year Colleges
IDENTIFIERS	*Pennsylvania College of Technology

ABSTRACT

This report provides a statistical profile of Pennsylvania College of Technology (PCT) and its service area for 1996-97. The first two sections provide a profile and history of the college, organizational charts, and a description of the governance system. Section III provides tables on students, including numbers of applications, enrollments, and graduates; enrollments by age, gender, attendance status, race, and county of residence; entering students' high school rankings and test scores and grades by division; student reasons for enrolling and leaving PCT; graduates' placements and salaries by division and major and national occupational growth projections; and continuing education enrollments by program area and location. Section IV describes PCT's potential student market, reviewing statewide population distributions and enrollment trends, high school graduation rates by county, and college entry rates by county and for PCT, while section V reviews statewide unemployment by county and enrollment, tuition, and fees at 14 competing institutions in PCT's service area. Section VI focuses on PCT personnel, including full- and part-time staff by occupational activity, racial/ethnic background, and gender; average full-time salaries by employee group and academic status; and faculty distribution by division and academic rank. Finally, section VII provides campus maps and descriptions of facilities, square footage, and classroom and lab space, while section VIII presents financial data related to tuition and fees by attendance and residency status; financial aid awarded; revenue by source; expenditures by function; and grant and contract revenue by source. PREFACE

This is the Pennsylvania College of Technology (Penn College) Source Book. It provides a detailed factual profile of Penn College and its environment. The Source Book is intended to be an informative and useful resource for constituents of the College, as well as serving as an orientation to new faculty and staff. Production of this document was coordinated by the College's Office of Strategic Planning and Research (OSPR). Questions, comments and requests for more detailed information may be directed to our office.

The 1996 edition of the Penn College Source Book is an interim version, produced in conjunction with the College's Middle States Periodic Review Report (PRR). The most current data available at the completion of the PRR were used in the Source Book. Fall 1996 data is included where feasible, otherwise 1995/96 data was used.

The Source Book is divided into eight sections, two in narrative form and six sections of statistical data. For the most part, where appropriate, the statistical sections present five years of historical data. Section I presents a brief institutional profile and history of the College. Section II presents the current administrative structure, through organizational charts and a description of the Penn College internal governance system.

Section III (Students) begins the statistical section of the Source Book. Describing Penn College students, it is further divided into six sub-sections. Section III-A (Admissions, Enrollments and Graduates) tracks students as they flow through the College, using a systems approach: new student inputs (admissions), students in the system (enrollments and retention), and finished student outputs (graduates and transfers). Five years of historical data are presented, as well as five-year enrollment projections. Section III-B (Student Demographics) describes background characteristics of Penn College students, including age, gender, race, and geographic origin. Section III-C (Academic Preparation and Outcomes) continues the systems approach, as related to student academics, beginning with student academic inputs (high school rank and placement test results) and subsequent performance at Penn College (course grades and grade point averages). Section III-D (Student Choices) draws upon a broad spectrum of survey research conducted by the College to examine the choices Penn College students make regarding their college enrollment. Section III-E (Occupational Placement) presents graduate placement trends, and national occupational projections. The final section, III-F (Non-Credit Continuing Education) looks specifically at non-credit enrollment in the College's continuing education programs.

Sections IV and V present external environmental factors that can influence student enrollments. Section IV (Prospective Students) presents state-wide populations, educational exposure and high school graduates, both historical and projected. Section V

(Student Alternatives) describes alternatives to, or competitors for, prospective Penn College students, including employment opportunities and alternative institutions.

Sections VI, VII and VIII describe the resources Penn College devotes to its institutional mission. These include human resources, physical resources and financial resources. Section VI (Human Resources) describes Penn College faculty and supporting staff. Section VII (Facilities, Physical Plant and Equipment) describes the College's land holdings, buildings, classrooms, laboratories, and instructional equipment. Section VIII (Finances) documents the College's fiscal status, including tuition and fees, financial aid, revenues and expenditures.

The Office of Strategic Planning and Research takes full responsibility for the accuracy of the data presented in this Source Book, to the extent that the original data sources were accurate. Questions or concerns about data accuracy may be initially directed to OSPR, but may ultimately need to be directed to the office, report or institution which originally provided the data, as indicated in the "Source" notation at the bottom of each table.

Data tables were produced using Excel spreadsheets and will be made available on the College computer network. Users familiar with Excel will be able to access and copy these spreadsheet files for their own use. We encourage users to contact the Office of Strategic Planning and Research if interested in making direct use of the data files.

SECTION I

INTRODUCTION: GENERAL INFORMATION

PENNSYLVANIA COLLEGE OF TECHNOLOGY
1996/97
INSTITUTIONAL PROFILE

TYPE: Two-year college (with limited baccalaureate programs)

CONTROL: Public - Commonwealth of Pennsylvania, via subsidiary affiliation with The Pennsylvania State University

ENROLLMENT: Fall 1996
- 4759 headcount, 4208 FTE;
- 1938 women, 2821 men;
- 3669 full-time, 1090 part-time;

FACULTY: Fall 1996
- 371 total;
- 231 full-time, 140 part-time;

FINANCES: 1996/97 total operating budget - $38,497,558

DEGREES AWARDED:
- Bachelor of Science (BS)
- Associate of Arts (AA)
- Associate of Science (AS)
- Associate of Applied Arts (AAA)
- Associate of Applied Science (AAS)
- Vocational Certificates (1- and 2-year)
- Competency Credentials

ACADEMIC SCHOOLS/CAMPUSES:
- Business and Computer Technologies
- Construction and Design Technologies
- Health Sciences
- Hospitality
- Industrial and Engineering Technologies
- Integrated Studies
- Natural Resources Management
- Transportation Technologies
- North Campus

FACILITIES: 902.95 acres (as of 1995/96)

20 buildings (excluding current construction) -

- Academic Center
- Advanced Technology & Health Sciences Center
- Automotive Trades Center
- Aviation Center
- Buildings Trades Center
- Campus Center
- Community Arts Center
- Diesel Center
- Earth Science Center
- General Services
- Gymnasium
- Learning Resources Center
- Lifelong Education Center
- Metal Trades Center
- Morgan Valley Retreat Center
- North Campus
- Professional Development Center
- Sawmill
- Susquehanna River Site
- Technical Trades Center

INSTITUTIONAL HISTORY

ESTABLISHING A TRADITION IN THE REGION

The Williamsport area established a commitment to providing quality, vocational/technical education responsive to community and individual needs in the early 1900's. This training began in a small way at the time of the First World War as the Williamsport School District provided industrial arts shops. The community was soon serviced by the expansion of the inaugural program to an evening adult program that emphasized vocational education. Enrollments quickly increased with the return of World War I veterans, including the disabled. The Depression Era of the 1930's witnessed additional growth in the local educational effort as retraining for the unemployed was provided in conjunction with New Deal programs. By this point the local community effort had attained national prominence for vocational/ technical education and was referred to as "The Williamsport Plan."

The second phase of the formative period was the timely establishment of the Williamsport Technical Institute in 1941. This development heightened the visibility of the vocational training opportunities and increased institutional flexibility. The almost immediate involvement of the nation in the Second World War and the rapid transition to the postwar industrial boom accelerated the expansion of the emphasis on and merits of vocational training. Once again veterans and handicapped persons were significant clientele of the educational services provided locally. The strengths of the local community effort began to draw students from outside the region at the same time as the Williamsport Technical Institute first offered its vocational training for secondary students to regional school districts in 1945.

The educational programs in these formative times were locally controlled and funded. Resourcefulness of the staff was a key to development and the procurement of instructional resources. As recognition of vocational training grew and the need for overall postsecondary education increased, an expanded mission followed societal shifts and the maturation of the industrial society as Pennsylvania joined the national trend toward two-year postsecondary institutions by the passage of the Community College Act of 1963.

SUMMARY OF SIGNIFICANT EVENTS IN ESTABLISHING THE REGIONAL TRADITION

DATE	EVENT
1914-1919	- Industrial Arts program inaugurated as part of the Williamsport School District
1919	- Training provided for disabled servicemen
1920	- Part-time vocational/technical education provided for Williamsport High School students
1930's	- Vocational programs provided to unemployed under contract as part of federal programs (CCC, WPA, etc.)
1940	- Cooperation with Pennsylvania Rehabilitation for training programs
1941	- Creation of the Williamsport Technical Institute
1944	- Veterans' training begun even before the passage of G.I. Bill of Rights (Twenty-seven courses of study available including a joint program sponsored by WTI and local industry for the "Veteran Inventor.")
1945	- Watsontown High School becomes the first area district to utilize the WTI for secondary vocational education

TRANSITION TO A COMMUNITY COLLEGE

Local supporters of vocational education seized the opportunity for more extensive community and state support offered by the Community College Act of 1963. Discussions and negotiations ensued and by February, 1965, local school districts had joined to create The Williamsport Area Community College. Local orientation was reflected in sizable Williamsport representation on the Board of Trustees with the seeds for a larger, regional emphasis reflected in the size of the formally designated service area which encompassed 10 counties and 7,207 square miles.

The transition was much more than a name change. A comprehensive community college mission backed by a greatly expanded support mechanism was established. Secondary, postsecondary, general education and community service programming were key components of the new institution. Witnessing the merits of the new philosophy and mission, the College began to grow immediately. Students, staff, and programs expanded in the late 1960's and early 1970's. Physical space needs to accommodate the growth were met through the acquisition of existing buildings such as the facilities of the former Williamsport High School and adjacent industrial structures.

The growth of the College saw the number of sponsor districts increase to 20 by 1977. Students, attracted by the strong and diverse vocational emphasis, were drawn from across the state and the Northeast region of the nation. This spurt in numbers derived from a variety of factors such as the last vestiges of the baby boom, societal emphasis on vocational training, the return of veterans from the Vietnam conflict, and societal role changes that spurred many adults, especially women, to return to education.

Secondary programs experienced substantial increases during the last years of the population boom. The increase in size reflected an accompanying broadening of interests and involvement. Board of Trustees membership was now representative of the regional support. Students came in substantial numbers from outside the service area established in 1960.

In the early 1970's, temporary setbacks in enrollment were experienced as a result of a declining high school age population and the end of the Vietnam era. Assessment of the future of the institution was undertaken. Under new leadership. and internal reorganization, the College began to take stock of its future. Administrative reorganization, instructional and student development, and plans for addressing major facilities problems resulted. Community education expanded its offerings and created effective marketing strategies to meet the societal attitudinal changes regarding retraining and leisure pursuits. Basic services in developmental studies, cooperative education, and career counseling were established or expanded. Some shifts in programs occurred in response to cyclical employment trends and developments in occupational and personal needs and opportunities.

The College celebrated its 20th year of service during school year 1984-85. But as the year began, the 20 school districts which sponsored the college actively sought a way out of their sponsorship arrangement. Significant efforts to secure a county sponsorship began in the early fall and continued through the late spring with a facilitator from the Department of Education attempting to mediate a satisfactory resolution in June, 1985. As all of the efforts proved to be unsuccessful, the College faced a July 1 closing if no solution could be secured.

With the July 1 deadline just days away, the long-sought solution was found. On June 27, 1985, the City of Williamsport approved an offer of city sponsorship followed by the acceptance of the Colleges' Board of Trustees the next day. The Pennsylvania Department of Education approved the new sponsorship agreement on July 11, making official the first modified sponsorship arrangement within the State System of Community Colleges.

The working relationship between the College and its new sponsor, the City of Williamsport was positive from its beginning in 1985. However, good relations were realized in part because of the very conservative College request for funds from the City during each annual budget cycle. While highly supportive of College programs and opportunities and while contributing less than three percent (3%) to total College funding, the City announced in 1988 its desire to facilitate a broadened sponsorship base, so that it might exit from sponsorship obligations on or before June 1990. In light of the significant and growing impact of College programming and service throughout Pennsylvania, a new type of statewide sponsorship was sought by the College as the final and most appropriate solution to the long search for broadened sponsorship.

CONTINUING AND EXPANDING THE TRADITION WITH A NEW AFFILIATION

Expanding College activity during the late eighties in the area of technology transfer led to active working relationships with Penn State officials as the Consortium for Advanced Manufacturing Productivity was implemented and as one of the state's Industrial Resource Centers was jointly secured. From these partnership efforts, the College became aware of the commonality of purpose and interest that suggested significant benefits could result from permanent affiliated resources and operations.

On September 14, 1988, the Governor of Pennsylvania, the President of The Pennsylvania State University, and the President of The Williamsport Area Community College jointly announced a prospective affiliation between the two institutions in which The Williamsport Area Community College would become a subsidiary corporation of the Corporation for Penn State. During the remainder of 1988 and the first half of 1989, extensive efforts produced three documents which constitute the "affiliation agreement" between the two educational entities: 1) Articles of Incorporation and Bylaws, 2)

Memorandum of Understanding, and 3) House Bill No. 1086. With the support of the state's governor and exceptional leadership by local legislators, the legislation creating Pennsylvania College of Technology as an affiliate of Penn State became law on July 1, 1989. One fundamental principle is reflected throughout all merger documents: the commitment to continuation of existing College philosophy, mission, and goals with normal review and enhancement as appropriate. However, with significant and immediate improvement in institutional health and financial stability and with the prospect for new and expanded program opportunities to service future educational needs, particularly in the advanced technologies, the Pennsylvania College of Technology of today was able to begin full realization of the untapped potential and excellence of The Williamsport Area Community College of yesterday.

The College is now an affiliate of The Pennsylvania State University; the College is not a Penn State commonwealth campus or center. Today the College enjoys the benefits of a strengthened Board of Directors, appointed by Penn State and consisting predominately of strong educational leaders augmented with important political and community representation. The College has maintained its identity and reputation many years in the making. The College has developed proven and effective policies, procedures, staffing, legal counsel and contractual obligations while simultaneously ensuring future growth vitality, and opportunity.

SUMMARY OF SIGNIFICANT EVENTS IN THE HISTORY OF PENNSYLVANIA COLLEGE OF TECHNOLOGY

DATE		EVENT
February 11, 1965	-	Plan for The Williamsport Area Community College officially approved by the state
September 7, 1965	-	First semester for the College began
1965	-	Dr. Kenneth E. Carl, President
1967	-	Additional industrial space acquired
1968	-	Creation of 28 community college districts - W.A.C.C. assigned 10 counties
1970	-	College accredited by Middle States Association
1970	-	New facility constructed: Automotive Technology Center
1971	-	New facility constructed: Earth Science Center
1972	-	Developmental Studies initiated
1973	-	Distinct Financial Aid Office function was established
1973	-	Resource Development begins as a College function
1974	-	Dr. William H. Feddersen becomes President
1975	-	College re-accredited by Middle States Association
1975	-	Off-campus programs began by Center for Lifelong Education (Sullivan County and Canton High Schools)
1976	-	Cooperative Education started
1976	-	Cross registration begun with Lycoming College

SUMMARY OF SIGNIFICANT EVENTS IN THE HISTORY OF PENNSYLVANIA COLLEGE OF TECHNOLOGY (continued)

DATE		EVENT
1977	-	Full-time position for Industrial/Business Program in Center for Lifelong Education provided
1977	-	Wilderness Adventure began by Center for Lifelong Education to take advantage of natural recreational environment of area
1978	-	COPing program initiated (College Opportunity Program)
1980	-	New facilities constructed: Learning Resources Center, Building Technologies, and Metal Trades
1980	-	Outreach began by Center for Lifelong Education targeted at special populations
1981	-	Dr. Robert L. Breuder becomes President
1982	-	Williamsport Area Community College Foundation created
1982	-	Complete acquisition of land at main campus designed under Facilities and Site Master Plan
1982	-	Educational Research, Planning and Evaluation function created
1983	-	North Campus begins first semester
1984		New Lifelong Education Center occupied
1984	-	Reaffirmation of College accreditation by the Middle States Association

SUMMARY OF SIGNIFICANT EVENTS IN THE HISTORY OF PENNSYLVANIA COLLEGE OF TECHNOLOGY (continued)

DATE	EVENT
1985	- City of Williamsport becomes sole sponsor of the College
1985	- Ground broken for new 152,000 square foot Advanced Technology and Health Science Center
1986	- Implementation of College-wide Rolm/IBM Information Network System
1986	- Completion of student designed and constructed Professional Development Center
1987	- Opening of Advanced Technology and Health Sciences Center
1987	- The Lock Haven University Center at Williamsport Area Community College established as first Pennsylvania university center housed on a community college campus
1987	- Full implementation of College-wide Internal Governance System
1988	- Formal discussions commence regarding the College becoming a subsidiary corporation of The Corporation for Penn State
1988	- National Science Foundation (NSF) Planning Grant awarded to College to develop a proposal to become the first community college based NSF-sponsored Technical Transfer Center in the nation.
1988	- Three-year partnership between the College, Penn State and Susquehanna Economic Development Association - Council of Governments established one of five state funded Industrial Resource Centers at the College.

SUMMARY OF SIGNIFICANT EVENTS IN THE HISTORY OF PENNSYLVANIA COLLEGE OF TECHNOLOGY (continued)

DATE		EVENT
July 1, 1989	-	House Bill No. 1086 created Pennsylvania College of Technology as an affiliate of The Pennsylvania State University providing for the College to assume the functions of The Williamsport Area Community College.
1990	-	College's first municipal bond issue in amount of $32 million dollars to fund Stage IV building program (with concurrent completion of building specifications for new Aviation Center, Campus Center, and acquisition/ restoration of the Capitol Theater).
1990	-	Five year Title III grant ($2 million dollars) awarded to College to develop student-centered, individualized instruction approach using computerized technology-based instruction systems.
1990	-	Initiated extensive foundation work for developing first Penn College baccalaureate degrees.
1990	-	Technology Transfer Center, with support of National Science Foundation grant, under full operation.
1990	-	Completion of Penn College Retreat Center at Morgan Valley
1991	-	Ground broken for three major building projects: Lumley Aviation Center, Bush Student Center, and Community Arts Center (addition to/restoration of Capitol Theater).
1991	-	Final design of first Baccalaureate programs to begin Fall 1992: Construction Management, Dental Hygiene, and Manufacturing Engineering Technologies.
1992	-	Fall enrollment at record 4301 FTE; sixth consecutive year of FTE enrollment growth (51% cumulative increase since 1987); total student headcount (full and part-time) at 4891 (42% cumulative increase since 1987).

SUMMARY OF SIGNIFICANT EVENTS IN THE HISTORY OF PENNSYLVANIA COLLEGE OF TECHNOLOGY (continued)

DATE	EVENT
1992	- Sixty-three students initially enrolled in first four-year bachelor of science degree programs; additional four-year programs being developed in Transportation Management, Electronics Engineering Technology, Natural Resources Management, Business and Computer Technologies.
1992	- Unconditional Middle States Accreditation reaffirmed. Findings of Middle States' visitation team included: a) College's self-study honest and thorough, b) Staff are first rate, c) Students are serious about their work, d) Physical plant enviable, e) Finances and fiscal management are healthy, f) Planning process comprehensive and sound.
1992	- 55-member Tech Prep Consortium implemented through Penn College's Technology Transfer Center providing sequential technical preparation combining at least final two years of high school with two years of postsecondary education (2 + 2). Supported through the College by a three-year, $1.1 million federal grant (Carl Perkins Act).
1993	- Three major construction projects comprising the Stage IV Building Plan completed: in January, the Kathryn W. Lumley Aviation Center housed the first students at its location at the Williamsport-Lycoming County Airport in Montoursville; in May, dedication was held for the Community Arts Center, a combination renovation, restoration and new construction project in downtown Williamsport; in August, students returned for the Fall semester to the new Alvin C. Bush Campus Center, housing student development, recreation, and academic space.

SUMMARY OF SIGNIFICANT EVENTS IN THE HISTORY OF PENNSYLVANIA COLLEGE OF TECHNOLOGY (continued)

DATE	EVENT
1993	- First graduate in baccalaureate program.
1994	- Penn College opened Child Care Center.
1995	- Diesel Technology relocated to new facility at Allenwood campus.
1995	- Middle States Visiting Team affirms the College's baccalaureate programs.
1996	- Construction begins on **The Village**, Penn College's first residence facility.

SECTION II

ORGANIZATION AND ADMINISTRATION

ORGANIZATION AND ADMINISTRATION OF THE COLLEGE

In order to pursue its philosophy and mission, to strive toward its goals and to accomplish its objectives, the College is organized into five major functional areas: Academic Affairs, Administration, Student Services, Employee and Governmental Relations, and the Office of the Senior Vice President (which includes Student Services). Each area is headed by a vice-president or dean who is a member of President's Council, the College's senior staff.

The College's organizational structure is graphically displayed in Charts I-1 through I-6. The first chart details the Office of the President and each succeeding chart details the other functional areas respectively.

INTERNAL GOVERNANCE SYSTEM

Responding to a College-identified objective contained within its Long Range Plan, in 1984, the Middle States Association recommended the development of a representative College body to coordinate the initiation, review, and recommendation of policies and procedures to the President. Following the year-long (1985-86) planning, review, assessment and discussion by the Governance Steering Committee, a recommended Governance System and associated By-laws were approved in July, 1986. The Internal Governance System provides a broad-based opportunity for input and participation in the College governance process from all internal segments of the College community, through elected and designated group representatives to a College Council and related Council Committees. The College Governance System replaced the former system of College-wide Committees.

Participants of the Internal Governance System examine, discuss, and make recommendations regarding the general areas of College operation all within the limitation established by contractual agreements and establish legal authority. Six Council Committees focus upon academic standards and issues, curriculum, facilities, human resources, long range planning, and student affairs.

Listed below are the primary objectives of the governance umbrella structure known as College Council. In addition, the general objectives and responsibilities of the six existing Council Committees are listed along with the specific functions of each committee. For a complete discussion of governance philosophy, membership, organization and operation please refer to the College document titled By-laws of the Governance System, revised May 1995.

I. THE COLLEGE COUNCIL: OBJECTIVES AND RESPONSIBILITIES

* To recommend establishment, deletion, number, functions, and composition of College Council Committees and oversee the operation of these Committees.

* To recommend establishment, deletion, number, functions, and composition of College Council ad-hoc Committees at College Council's discretion or upon request from the College President. College Council ad-hoc Committees will deal with issues of broad institutional impact germane to the purpose of the Governance System.

* To receive, review, evaluate, and act upon reports, proposals, and recommendations from College Council Committees.

* To recommend acceptance, modification, or rejection of reports, proposals, and recommendations to the College President.

* To study and make recommendations regarding issues germane to the Governance System but not assigned to or under consideration by a College Council Committee.

* To respond to requests from the President that College Council study and make recommendations regarding a stated issues or concern.

* To review and respond to those decisions made by the President or Board of Directors that are germane to the responsibilities and concerns of the Governance System.

* To develop appropriate communication mechanisms that regularly communicate the status and disposition of issues, reports, proposals, and recommendations to the College community, including College Council Member's constituents.

* To provide for the annual Governance election processes through the appointed ad-hoc Elections Committee.

* To evaluate the effectiveness of College Council and all its Committees.

II. THE COLLEGE COUNCIL COMMITTEES: GENERAL OBJECTIVES AND RESPONSIBILITIES

- To provide investigative and deliberate analysis of issues related to specific Committee responsibilities. As appropriate, this analysis will include the functions of brainstorming, initiating, planning, advising, revising, coordinating, reviewing, evaluating, and communicating.

- To investigate proposed actions, initiate proposals where appropriate, and recommend actions to the College Council.

- To identify an annual listing of Committee priority issues during the first month of Committee operation to ensure a focus for Committee progress and accomplishment. Annual priority issues should relate to annual College objectives and initiatives. Upon Committee approval, this listing will be shared with College Council for review and comment.

- To form temporary Committee subgroup task forces to analyze specific issues. These task forces may include resource individuals who are not members of the Committee.

- To examine and develop appropriate processes for effective Committee functioning.

- To evaluate effectiveness of Committee analysis and recommendations.

III. COLLEGE COUNCIL COMMITTEES: FUNCTIONS

A. Academic Standards and Issues Committee

* To be innovative and to review and make recommendations in the following areas:

  a. instructional methodology and materials
  b. program evaluation
  c. core competencies/courses/credentials
  d. student retention/probation/termination
  e. academic standards

B. Curriculum Committee

* Review and make recommendations concerning new, revised, and to-be-deleted courses, programs, or curricular proposals.

* Ensure information regarding proposals is communicated to appropriate constituencies for new, revised, and to-be-deleted courses, programs, or curriculums.

C. Facilities Committee

* Review and make recommendations to College Council concerning adequacy of facilities, space allocation, equipment, and safety.

* Review and make recommendations to College Council concerning College plans for future physical plant (i.e., new construction, major renovations) and coordinate new growth consistent with the College mission.

* Coordinate/review actions of subcommittees, review their proposals and make appropriate recommendations to College Council.

* Review and recommend to College Council policies and procedures for facilities use, scheduling, and fees.

D. Human Resources Committee

* Review policy on promotions and make recommendations or modifications; review and recommend actions on promotion applications.
* Review/modify/recommend policy on evaluation systems.
* Review/modify/recommend policy and actions on sabbatical applications.
* Brainstorm ideas/activities for staff development and review/ advise/ recommend staff development
* Review/advise on non-faculty personnel policies, benefits, hiring procedures, etc.
* Review/advise on EEOC and Affirmative Action policies.
* Review/advise/recommend policies on part-time faculty and non-faculty.

E. Long Range Planning Committee

* Review and evaluate outcomes of existing strategic planning research documents and the College Long-Range Plan.
* Assist in planning; recommend annual updates to the College Long-Range Plan, and present annual analysis of institutional strengths, weaknesses, opportunities, and threats (SWOT) to President's Council.
* Brainstorm and promote ideas that provide innovation and creativity in annually identified special topic areas.
* Recommend annual and long-term planning priorities (Academic Affairs, Facilities, Student Affairs, and Human Resources, with other areas added as included in the overall Governance Structure).
* Serve as a review group for the Director of Strategic Planning and Research.
* Solicit input to the planning process by various means including interactions with Chairs of College Council Committees.
* Communicate with the College community regarding planning and its outcomes.

F. Student Affairs Committee

* Initiate, review/comment/advise/recommend/not recommend, follow, and evaluate aspects of student life, including housing, athletics, extra-curricular activities, student government, cultural events, commencement, and general student welfare.

* Review and evaluate the procedures for student due process and student grievances, making recommendations for change as appropriate.

* Review and assess the College's marketing plan and make recommendations for revisions.

* Review/comment/advise, recommend/not recommend, and evaluate the College's plans with regard to enrollment and new student recruitment.

* Review and make recommendations regarding institutional development and community relations particularly with respect to marketing and impact upon students.

* Make recommendations regarding alumni affairs.

SECTION III

STUDENT ENROLLMENTS AND PROFILES

SECTION III-A OVERVIEW:
ADMISSIONS, ENROLLMENTS AND GRADUATES

Section III presents student data, sub-divided into six parts: admissions, enrollment and graduates; demographics; academics; student choices; placement/occupational outlook; and non-credit continuing education.

Section III-A, Admissions, Enrollments and Graduates, shows Fall admissions data and program major enrollments, retention and graduation rates, graduate and transfer data, and enrollment projections.

Table III-A1 displays a breakdown of admissions prospects, applications, acceptances, tuition deposits and enrollments, by school and major, for 1992-1996.

Table III-A2 presents full-time and part-time headcount enrollments by site, school, degree level and major, for Fall 1992-1996. Table III-A3 presents a similar format, showing credit hour, full-time equivalent (FTE) and average full-time credit load for the same years. Table III-A4 is a new one-page table, summarizing headcount, credit and FTE data from Tables III-A1 and A2, by degree level.

Some students are not accepted directly into their desired program, but are placed in pre-program status or the new Developmental Semester. These enrollments are detailed in Table III-A5, for Fall 1992-1996.

Table III-A6 provides first year retention rates by site, school, degree level and major, detailing the percentage of entering students from Fall 1991-1995 who returned for the following Fall semester. Table III-A7 presents longer term retention and graduation rates, three years after full-time entry, by degree level, school and major.

Table III-A8 shows the number of graduates by degree level, school, major and gender, for 1991/92-1995/96. Table III-A9 breaks down, by state and category, the institutions to which Penn College students, both graduates and leavers, transferred from 1990-1995.

Most enrollment information presented is based on the Fall semester. Table III-A10 presents fiscal year FTE enrollments for 1991/92-1995/96, in similar format to Table III-A11, which presents fiscal year FTE enrollment projections for 1996/1997-2000/2001.

Note. Students in pre-program, advanced placement candidate or developmental semester status are counted in their chosen major (e.g. advance placement & pre-Nursing students are included in Nursing).

(a) Current year data are preliminary, reflecting enrollments are as of the third week
(b) BS=Bachelor of Science, A A=Associate of Arts, A S=Associate of Science, AAA=Associate of Applied Arts, AAS=Associate of Applied Science, C 2=2-year Certificate, C-1=1-year Certificate.
(c) Additional students enrolled in this major at other campuses or sites.

Note. Entering class consists of first-time (new) students, both full-time and part-time, excludes transfers.
Note. First year retention is defined as those entering students who return the following Fall semester or graduated.
Note. Students in pre-program, advanced placement candidate or developmental semester status are counted in their chosen major (e.g. advance placement & pre-Nursing students are included in Nursing).

(a) BS=Bachelor of Science, A A=Associate of Arts, A S=Associate of Science, AAA=Associate of Applied Arts, AAS=Associate of Applied Science, C 2=2-year Certificate, C-1=1-year Certificate.
(b) Additional students enrolled in this major at other campuses or sites.

Note. Entering class consists of first-time (new), full-time students, excludes transfers and part-time students.
Note. Students in pre-program, advanced placement candidate or developmental semester status are counted in their chosen major (e.g. advance placement & pre-Nursing students are included in Nursing).

(a) Baccalaureate majors were not initiated until 1992; therefore 3-year retention rates are presented, rather than graduation rates.
(b) Additional students enrolled in this major at other campuses or sites.

SECTION III-B OVERVIEW:
STUDENT DEMOGRAPHICS

Section III-B, Student Demographics, presents headcount enrollments according to several student characteristics: age, gender, race and geographic origin. All data in this section are based on Fall 1992-1996 headcounts.

Table III-B1 displays age distributions and mean ages of female and male students by full-time and part-time status. Table III-B2 presents enrollment by racial classification and gender. Table III-B3 displays enrollments by state, and area and county within Pennsylvania.

SECTION III-C OVERVIEW:
ACADEMIC PREPARATION AND OUTCOMES

Section III-C, Academic Preparation and Outcomes, presents high school class standing and placement test results, and subsequent Penn College course grade distributions and grade point average (GPA) data.

Table III-C1 shows high school class ranking (top, middle or bottom third) of new degree-seeking students for Fall 1992-1996. Table III-C2 is a new table showing score distributions and averages of entering students providing SAT results for Fall 1992-1996. Table III-C3 presents single and multiple student placement test deficiencies by school, for 1992-1996.

Table III-C4 displays final course grade distributions by school for both Fall and Spring semesters combined, 1991/92-1995/96. Table III-C5 presents mean semester and cumulative GPAs for Spring 1992-1996, and related information summarizing the number of students on the Dean's List, cumulative probation or semester probation, by school.

SECTION III-D OVERVIEW:
STUDENT CHOICES

Section III-D, Student Choices, documents students' reasons for going to college in general, reasons for enrolling at Penn College in particular, reasons for not enrolling or not returning to Penn College, alternative activities and alternative institutions. All data are derived from various routine student surveys, including Project Profile, the CIRP Freshmen Survey, Non-Matriculant Survey and Leaver Survey.

Table III-D1 presents reasons full-time freshmen noted as very important in deciding to go college, in Fall 1989, 1990, 1992 and 1995. Table III-D2 presents reasons entering degree-seeking students chose to enroll at Penn College in Fall 1992-1996. Table III-D3 presents reasons non-matriculants chose not to enroll at Penn College in Fall 1991, 1993 and 1995. Table III-D4 presents reasons students enrolled in the Spring semester did not return for the following Fall semester, in 1990, 1992 and 1994.

Table III-D5 presents the status of non-returning students after leaving the College and alternatives most seriously considered by freshman who did enroll at the College. Table III-D6 shows, by state and institutional category, the institutions that non-matriculants and leavers chose to attend rather than enrolling or re-enrolling at Penn College in 1990-1995

Note. For survey purposes, Leavers are defined as Spring semester students expected, but not returning the following Fall.
Expected returning students exclude non-degree seeking students, Spring or Summer graduates, and students terminated by the College.
Prior to 1992, students who officially withdrew were not surveyed; beginning in 1992, students who voluntarily withdrew were also surveyed.

SECTION III-E OVERVIEW:
GRADUATE PLACEMENT & OCCUPATIONAL OUTLOOK

Section III-E, Graduate Placement and Occupational Outlook, presents graduate placement rates and salaries, and occupational fields projected to show the fastest and largest growth.

Table III-E1 shows graduate placement rates by school, degree level and major, for the 1990/91-1994/95 graduating classes. Table III-E2 presents a similar breakdown of average salaries for graduates working full-time in an occupation directly or indirectly related to their major. Both tables are based on the annual Graduate Survey.

Table III-E3 shows the occupations projected to have the greatest increase in job openings between 1992 and 2005, as well as actual growth between 1990 and 1992. Table III-E4 shows the occupations projected to have the greatest rate of growth during the same period.

(a) Placement is defined as continuing education, serving in the military or employment; overall placement includes ALL jobs, Positive Placement excludes jobs unrelated to graduates' major field.
(b) BS=Bachelor of Science, A A=Associate of Arts, A S=Associate of Science, AAA=Associate of Applied Arts, AAS=Associate of Applied Science, C 2=2-year Certificate, C-1=1-year Certificate.
(c) Totals include North Campus graduates in the same major.

SECTION IV

PROSPECTIVE STUDENTS

SECTION IV OVERVIEW:
PROSPECTIVE STUDENTS

Section IV presents external data documenting the College's potential market, in terms of high school enrollments and overall population demographics.

Table IV-1 displays statewide population distributions from the 1980 and 1990 censuses, by county and race. Table IV-2 presents statewide college enrollment rates and educational attainment rates (high school diploma and baccalaureate degree recipients) by county, from the 1990 census.

Tables IV-3 through IV-5 present four years of historical data and three years of projected data tracking high school students from 10th grade enrollment through graduation and subsequent enrollment in college, for all Pennsylvania counties and school districts within the immediate 10-county area. Table IV-3 presents 1989-1995 10th grade enrollments and subsequent graduates (actual 1992-1995, projected 1996-1997) and graduation rates. Table IV-4 displays the actual number and rate of high school graduates who enroll in college the following Fall, from 1992-1995, and projected entering college students for 1996-1998. Table IV-5 shows the actual number and rate of high school graduates who enrolled at Penn College the following Fall, from 1992-1995, and projections for 1996-1998.

(a) Projected graduation rates are based on average 4-year County/School District graduation rates.
Projected graduates are calculated by multiplying 10th grade enrollments by projected graduation rates.

(b) County totals include private and nonpublic high school data, which are not part of school district figures.

Source: Public, Private and Nonpublic Schools: Enrollments, High School Graduates, PDE
Education Statistics: Projections to 1999-2000, PDE

(a) Projected graduation rates are based on average 4-year County/School District graduation rates (see Table IV-3).
Projected college entry rates are based on 1995 actual entry rates and state projected increases in college entry rates.
Projected graduates entering college are calculated by multiplying projected graduates by projected entry rates.

(b) County totals include private and nonpublic high school data, which are not part of school district figures.

(a) Projected college entrants are based on County/School District 10th grade enrollments and projected graduation and college entry rates.
Projected Penn College entry rates are based on average 4-year County/School District entry rates.
Projected Penn College entrants are based on projected County/School District college entrants multiplied by average 4-year County/School District Penn College entry rates.

(b) County totals include private and nonpublic high school data, which are not part of school district figures.

SECTION V

STUDENT ALTERNATIVES

SECTION V OVERVIEW:
STUDENT ALTERNATIVES

Section V presents external data describing alternatives, or competitors for Penn College students, specifically data related to unemployment rates and alternative institutions.

Table V-1 shows the state's total labor force and unemployment rates by county for 1991-1995.

Tables V-2 through V-4 present data concerning alternative institutions that our prospective students choose to attend rather than attending Penn College. These alternative colleges were identified as the 11 institutions showing the highest enrollment of Penn College non-matriculants and leavers from 1990-1995 (see Table III-D5). Table V-2 displays descriptive data about each alternative institution such as institution type, highest degree offering, location by city, county and state, and distance from Williamsport. Table V-3 shows headcounts, FTE enrollments and rate of growth in FTEs for the 11 alternative institutions compared to that of Penn College from 1991-1995. Table V-4 presents in-state and out-of-state annual tuition rates, and the rate of tuition increase for the 11 alternative institutions compared to that of Penn College for 1991-1995.

(a) In 1994, the US Department of Labor began using a revised survey method to produce labor force estimates; consequently, effective 1994, these data are not comparable to prior years.
(b) Labor force and unemployment figures are in thousands.

Note. Enrollments at all levels (undergraduate, graduate & professional) included. Federal and state definitions of FTE differ from that of Penn College; for comparative purposes, this table presents Penn College FTEs according to government standards. Thus, Penn College FTEs reported in this table do not match those reported internally and in other tables.

(a) Includes all branch campuses.
(b) Formerly Williamsport School of Commerce

SECTION VI

HUMAN RESOURCES

SECTION VI OVERVIEW:
HUMAN RESOURCES

Section VI presents a statistical summary of the faculty and staff of Pennsylvania College of Technology.

Table VI-1 illustrates the racial composition of College staff by occupational activity and full-time/part-time status. Table VI-2 illustrates the composition of College staff by gender, occupational activity and full-time/part-time status. Both tables present Fall 1992-1996 data.

Table VI-3 summarizes the educational background of College faculty, administrative and professional staff, by noting the highest degree held in Fall 1991-1995. Table VI-4 provides the average full-time salaries by employee group and academic status in 1991-1995. Table VI-5 illustrates faculty distribution by school and academic status for 1991-1995.

SECTION VII

FACILITIES, PHYSICAL PLANT AND EQUIPMENT

SECTION VII OVERVIEW:
FACILITIES, PHYSICAL PLANT AND EQUIPMENT

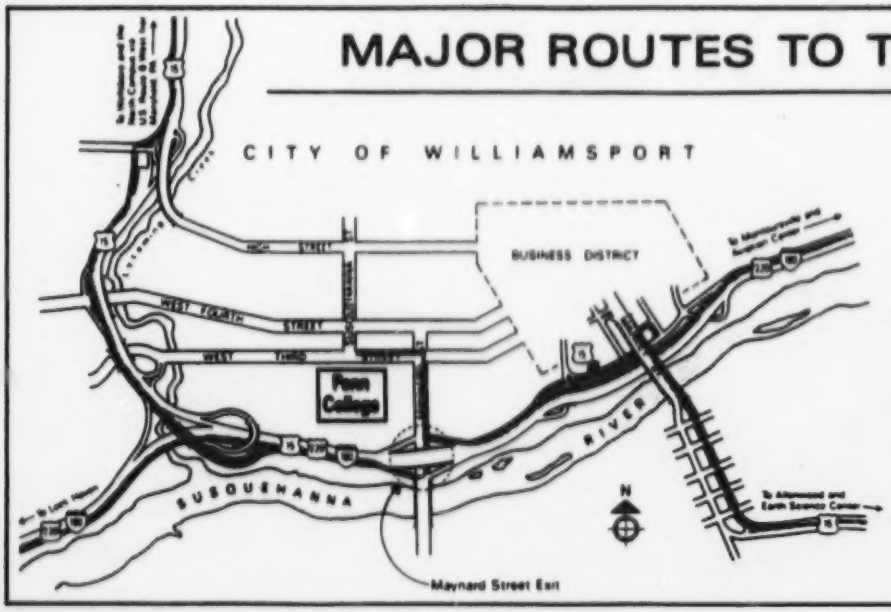
Section VII presents Penn College's current real estate holdings and facilities, and five years of instructional equipment purchases.

Charts VII-1 and VII-2 present maps of the region and the main campus. Table VII-1 summarizes the College's land holdings, by year of acquisition and size.

Tables VII-2 and VII-3 present the College facilities by year of construction, with estimated replacement cost, as well as a detailed analysis of the allocation of space by organizational area. Table VII-4 describes classroom and lab space by building, with footage, rated capacity and maximum potential capacity.

Table VII-5 summarizes instructional equipment purchases by academic cost center from 1990/91-1994/95.

MAJOR ROUTES TO THE CAMPUS



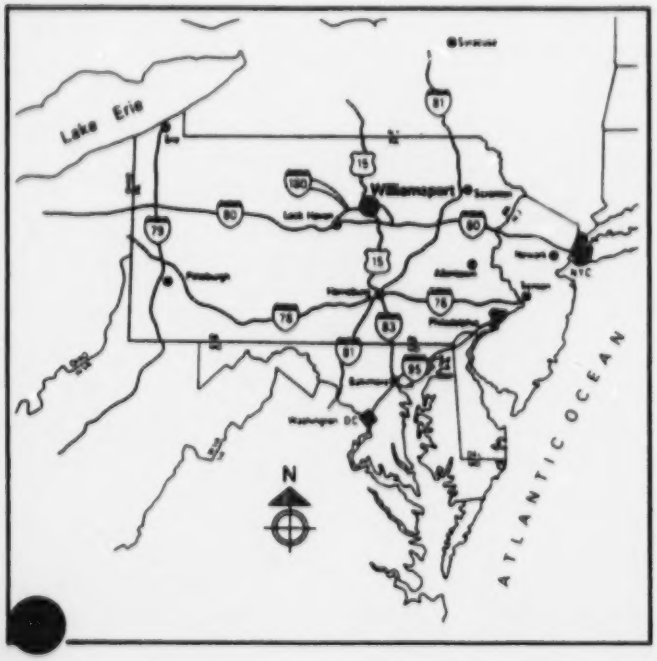
FROM THE NORTH: From U.S. Routes 14 and 15 South, follow U.S. Route 15 South to Williamsport and the Maynard Street Exit.

FROM THE SOUTH: Follow U.S. Route 15 North to Williamsport. Continue on 15 North to the Maynard Street Exit.

FROM THE EAST: Follow Interstate 80 to Interstate 180 (exit 31N). Follow Interstate 180 to Williamsport and the Maynard Street Exit.

FROM THE WEST: Follow Interstate 80 to Interstate 180 (exit 26). Follow Interstate 180 to Williamsport and the Maynard Street Exit.

From the Maynard Street exit, travel north on Maynard Street to the second traffic light. Turn left and proceed one-and-two-thirds blocks. The Academic Center will be on your right, the Learning Resources Center on your left.



Pennsylvania College of Technology, formerly The Williamsport Area Community College, is located in Williamsport, Pennsylvania—a city known internationally as the home of Little League Baseball. Williamsport is the county seat of Lycoming County, which supports a population of over 118,000. The city itself, with a population of over 33,000, offers the unique advantages of a city situated in a rural environment. The area surrounding the city is a virtual outdoor lovers' paradise, with ample opportunities for hunting, fishing, hiking, camping, backpacking and other outdoor activities just minutes from the downtown area.

The College's Main Campus is located at the west end of Williamsport, along West Third Street. The map inside depicts the facilities located on Main Campus. The College also includes three other campus locations: the North Campus near Wellsboro, the Aviation Center at the Williamsport-Lycoming County Airport in Montoursville, and the Earth Science Center in the Allenwood/Montgomery area. See the opposite panel for maps of these locations.

(a) Rated Student Capacity refers to the number of students who can be served based upon the number of desks and/or chairs available in the room.
(b) Allowing a standard of 15 square feet per student for general classroom space, the data reported in this column indicates the maximum number of students that could be comfortably served in this space with provision of sufficient furniture.
(c) Allowing a standard of 40 square feet per student for academic lab space and 100 square feet per student for technical lab space, the data reported in this column indicates the maximum number of students that could be comfortably served in this space with provision of sufficient furniture and equipment.

SECTION VIII

FINANCES

SECTION VIII OVERVIEW:
FINANCES

Section VIII describes trends in student tuition, fees, and financial aid, and institutional revenues and expenditures.

Table VIII-1 presents Penn College's tuition and fee structure, from 1992/93-1996/97. Table VIII-2 summarizes student financial aid awarded from 1991/92-1995/96, in terms of both the number of students served and the amounts awarded.

Tables VIII-3 through VIII-5 illustrate revenues and other additions by source and expenditures by function, from 1990/91-1994/95. Table VIII-3 documents College revenues by source. Table VIII-4 documents expenditures by function. Table VIII-5 shows grant and contract revenue.
